**Swat Spotlight**

## Special Services

From the  
Nation's Oldest  
Sheriff's Office

St. Mary's County  
Sheriff's Office

p. 6

### The Emergence of Appendix Carry

Appendix carry is now more popular, with more companies offering products.

p. 10

### How to Catch A Criminal:

Making Fools of Fugitives.

p. 30

### Waterproof PTT

The latest Damascus Gear PTT offers the same rugged and durable features you expect from your communications. The latest Damascus Gear PTT has a water PTT and a pressure proof design for use in the toughest conditions. "Breaker-Free" technology provides both with a different connection and will not fail in any mode of water you need when working.

The latest Damascus Gear PTT also has a standard PTT that has standard standard PTT features. This is perfect for using the standard PTT as a backup when conditions are not ideal. Get more gear at [officer.com](http://officer.com).

## ► Maximum personal protection

The **Damascus Gear** Riot and Disturbance Control Batons offer maximum personal protection, providing users with the professional advantage they need in close-quarter confrontations. Styles include high impact resistant straight batons, side handle batons, and expandable batons.

Attention to design, function and the smallest of details, along with the use of only the finest quality leathers and materials have helped Damascus Gear deliver consistent and trusted protection.

## The Lean, Mean ELSAG<sup>®</sup> Mobile Plate Hunter<sup>®</sup> ALPR System

Generation 7 of the ELSAG<sup>®</sup> Mobile Plate Hunter<sup>®</sup> Automatic License Plate Reader (ALPR) is now being shipped out. Besides reading license plates 200% faster than other ALPRs, it boasts a processor that's half the former size and built to take whatever Mother Nature throws at it. Now you can install it anywhere, anytime, on any vehicle or structure, to solve cases faster than ever.
